Mr. Bill Troy
Alaska Marine Lines
5615 West Marginal Way Southwest
Seattle, WA 98106

Final UST Closure Reports
Alaska Marine Lines Facilities
Seattle, Washington

Dear Mr. Troy:

Transmitted herein are three copies of each of the following documents:

7100 Second Avenue SW

- UST Checklist
- UST Change-in-Service Checklist
- Site Assessment for USTs
- Soil and Ground-Water Assessment

5615 West Marginal Way SW

- Site Assessment for USTs
- UST Checklist
- UST Change-in-Service Checklist

Two copies of each document are for mailing to the Washington Department of Ecology (DOE) and one copy of each report is for your files. I have provided an example of a cover letter that would be appropriate to accompany the reports to DOE. The letter should be on AML letterhead.

To avoid any confusion in the future, we recommend that all copies of the draft Site Assessment for USTs (both sites) and the Soil and Ground-Water Assessment (Second Avenue site) be destroyed.

A draft report concerning the soil and ground-water assessment for the West Marginal facility will be issued shortly. After Alaska Marine Lines has had the opportunity to review the draft report, we will finalize it for submittal to DOE.

If you have any questions concerning these reports or the project, please do not hesitate to call.

Sincerely,

DAMES & MOORE

Susan C. Kent
Project Manager
